

MUKARO TAKUDZWA KELVIN

COMPUTER ENGINEERING GRADUATE

CONTACT

+263786682192/+263715925400

takukelvin01@gmail.com

3357 Southview Park ,Harare

TECHNICAL SKILLS

- Software & OS: Windows, Linux, Python, C, Java, Haskell
- Backend & Data: Docker, FastAPI, MySQL, Postgres, Apache Kafka
- Other: Network Setup & Administration, ICT Security Protocols, Data Backup & Recovery, Inventory Management, MS Office Suite
- Hardware & Embedded: ESP32, Microcontroller Design, Hardware Troubleshooting & Repair, Installation & Maintenance of PCs/Peripherals
- Other: Network Setup & Administration, ICT Security Protocols, Data Backup & Recovery, Inventory Management
- IT Support: Technical Troubleshooting, User Support & Training, System Diagnostics, Helpdesk Operations
- Networking: Data Communications & Networks, Understanding of Networking Principles
- Data Analysis & Visualization: Power BI, SSMS, Data Extraction, ETL Processes, Report & Dashboard Development

EDUCATION

- 2021 – 2026
- BACHELOR OF ENGINEERING
HONOURS DEGREE IN COMPUTER
ENGINEERING
- First Class (1)
- Chinhoyi University of Technology
- 2019-2021 Chemhanza High School 3
'A' Level passes
- 2015-2018 Gutu High School 12 'O'
Level passes

PERSONAL DETAILS

Date of Birth

12 October 2001

Driver's License

Class 2

Nationality

Zimbabwean

PROFILE

First Class Computer Engineering graduate who built and deployed a real-time ML diagnostic system for solar mini-grids, spanning embedded hardware, machine learning, and cloud infrastructure as the capstone project. Comfortable working across the full engineering stack, from hardware and software to databases and systems integration. Delivered production systems at internship level, including a loyalty card platform and data pipelines.

PROJECTS & TECHNICAL EXPERIENCE

Real-Time ML Diagnostics for Solar Mini-Grids

- Capstone dissertation project using Python, FastAPI, ESP32, Docker, and React PWA. Built a two-stage anomaly detection pipeline served via a FastAPI inference endpoint.

Tuckshop Management System

- Built a cloud-hosted POS and inventory-management application using TypeScript, Supabase (Postgres), Vercel, and Render.

Sales Analytics Dashboard | Power BI, SSMS, MySQL

- Developed interactive Power BI dashboard visualising KPIs, customer demographics, product performance, and sales trends.

WORK EXPERIENCE

Software Developer Intern

Kaributech-AI

September 2024 - November 2024

- Developed responsive React frontend pages from Figma designs for a banking client's cross-border payments platform.
- Built a Kafka producer/consumer pipeline streaming live weather data into MySQL storage with a real-time dashboard, as part of independent exploration into data engineering tooling.

ICT Intern

Petrotrade PVT LTD

November 2024 - October 2025

- Implemented the PetroCard loyalty and coupon system, managing end-to-end onboarding of customers, staff, and third-party partners.
- Set up and administered the company network infrastructure, ensuring reliable connectivity across departments.
- Executed SSMS-based SQL queries for database validation, extraction, and ad-hoc financial and operational reporting.
- Conducted procurement analysis and hardware sourcing to support ICT asset management.
